

## **Moppet**

### **Toshihiro Anzai/Tamio Kihara**

Moppet is a new creative system that anyone can use. It is simple, easy and open. A Person can paint and make music at the same time. The system is networked by a telecommunications network. It links many participants and several spaces. The performance may be seen by a large audience. "Moppet creates CG paintings according to the way the participants move. The movement on "Moppet's" court takes the place of a paintbrush. The painting is projected to a screen over the court.
