

Deep Space LIVE

Milky Way - At Home in a Dome

November 18, 2010 / 8 PM / Ars Electronica Center

(Linz, November 15, 2010) You can't miss it in the sky on a clear, dark night: that bright, cloudy band stretching clear across the heavens is The Milky Way. It's a collection of about 200 billion stars proceeding along their trajectories around an inconceivably gigantic black hole that holds the entire galaxy together. Dietmar Hager will elaborate on the incredible forces at work here at the Ars Electronica Center's next Deep Space LIVE event on November 18th at 8 PM. The breathtaking jumbo-format (16x9-meter) visualizations feature 3D stereo.

Deep Space LIVE with Dietmar Hager

Dietmar Hager is a Fellow of the Royal Astronomical Society. He has been pursuing astrophotography for more than 20 years, and has published his images in international journals as well as educational books and videos. Dietmar Hager is also a specialist in microsurgery at Linz General Hospital.

Deep Space LIVE

The Ars Electronica Center is hosting a Deep Space LIVE event every Thursday (except holidays) at 8 PM. Each presentation features ultra-high-definition imagery in 16x9-meter format, accompanied by expert commentary, entertaining stand-up repartee, and musical improvisation. Whether great works from the history of art, space travel, journeys of discovery in the Nanoworld, or a live concert is what you've come to behold, Deep Space LIVE stands for enlightening entertainment amidst breathtaking worlds of imagery. Admission (including an accompanying person) is €2. Holders of a valid Museum ticket are admitted free of charge.
