

Deep Space LIVE

Linz\_Then/Now II

Thursday, November 3, 2011 / 8-9:30 PM / Ars Electronica Center Linz

(Linz, October 31, 2011) This coming Thursday, November 3, 2011, the next Deep Space LIVE event will feature extraordinary images of Linz past and present. From 8 to 9 PM, Dr. Fritz Mayrhofer, former director of the Archive of the City of Linz and publisher of numerous works on Linz history, and Dr. Anneliese Schweiger, head of the institution's Department of Documentation, will accompany guests on a photographic journey through Linz then and now on which historical photos are juxtaposed to current images captured from the identical angle to clearly bring out architectural changes and the city's development.

Deep Space LIVE

The Ars Electronica Center is now hosting a Deep Space LIVE event every Thursday (except holidays) at 8 PM. Each presentation will feature ultra-high-definition imagery in 16x9-meter format and will be accompanied by expert commentary, entertaining stand-up repartee, and musical improvisation. Whether great works from the history of art, space travel, journeys of discovery in the Nanoworld, or a live concert is what you've come to behold, Deep Space LIVE stands for enlightening entertainment amidst breathtaking worlds of imagery. Admission is €2. Holders of a valid Museum ticket are admitted free of charge.
