

Deep Space LIVE

Humankind and the Cosmos: A Subtle Analogy

Thursday, December 15, 2011 / 8 PM / Ars Electronica Center Linz

(Linz, December 13, 2011) At the next Deep Space LIVE this Thursday, December 15, astrophotographer Dietmar Hager will address the question of whether there exist analogies between the macro- and microcosms, and, if so, what form they take and how they might help to explain why the universe is constructed the way it is. Hager is sure to have some fascinating insights here: as a microsurgeon, he of course has comprehensive knowledge of human anatomy, and as a Fellow of the Royal Astronomical Society and operator of an observatory, he also knows quite a bit about what's out there in space.

Dietmar Hager

Dietmar Hager is a microsurgeon at Linz General Hospital and a Fellow of the Royal Astronomical Society. He has been doing astrophotography for over 20 years, during which time his images have appeared in international journals and textbooks.

Deep Space LIVE

The Ars Electronica Center is now hosting a Deep Space LIVE event every Thursday (except holidays) at 8 PM. Each presentation will feature ultra-high-definition imagery in 16x9-meter format and will be accompanied by expert commentary, entertaining stand-up repartee, and musical improvisation. Whether great works from the history of art, space travel, journeys of discovery in the Nanoworld, or a live concert is what you've come to behold, Deep Space LIVE stands for enlightening entertainment amidst breathtaking worlds of imagery. Admission is €2. Holders of a valid Museum ticket are admitted free of charge.
