Traces of the Past: Treasures from the Archive of the City of Linz – Linz_Then&Now II

Thursday, January 26, 2012 / 8 PM / Ars Electronica Center

(Linz, January 23, 2011) The history of the City of Linz will once again be the theme of a Deep Space LIVE series staged by the Ars Electronica Center in cooperation with the Archive of the City of Linz. The historical images not only offer visitors fascinating views of Linz in bygone days; high-definition visuals for which Deep Space is famous also reveal details that can't be seen using conventional display techniques. At each presentation, a guest speaker will be on hand to provide expert commentary. On January 26, Linz_Then&Now II will spotlight architectural changes to the Linz cityscape in the 19th and 20th centuries. Moderators are Fritz Mayrhofer and Annelise Schweiger of the Archive of the City of Linz.
